

CORPORATE MEMBERSHIPS

WHY THE Y?

The YMCA has been a leader in community wellness for over 150 years, offering a legacy of trust and commitment to improving lives. As a nonprofit organization, the YMCA is mission-driven, focusing on youth development, healthy living, and social responsibility. With local roots and a national reach, employees can access YMCAs across the country, ensuring that everyone can benefit from their extensive network of facilities and programs.

BETTER TOGETHER

What truly sets the YMCA apart is its commitment to community and cause. Unlike for-profit gyms or app-based wellness providers, the YMCA reinvests every dollar into programs that strengthen our communities. By partnering with the YMCA, you're not just investing in your employees' well-being, you're also helping kids learn to swim, feeding families in need, and creating safe spaces for teens. This holistic approach to wellness encompasses fitness, life style coaching, mental wellness, and community connection, ensuring a comprehensive mind-body-spirit experience for all.
